Wooten's journey begins in the depths of winter, as snow blankets the land and the farm animals huddle for warmth. As the seasons change, so too does the work on the farm. In the spring, Wooten tends to the newborn lambs and helps to plant the fields. In the summer, she harvests hay and tends to the vegetable garden. And in the fall, she prepares the farm for the long winter ahead.

Wooten's writing is both lyrical and informative, capturing the beauty of the natural world while also providing insights into the challenges and rewards of farming. She writes about the hard work and long hours, but she also celebrates the sense of community and the deep connection to the land that comes with farm life.

"A Year on the Farm" is more than just a memoir of one woman's experience. It is a testament to the power of nature and the importance of rural life. Wooten's book is a reminder of the interconnectedness of all living things and the importance of living in harmony with the rhythms of the natural world.
