Have you ever wondered what the world looks like from an ant's perspective? Photographer Michael Schauer has spent years crawling through forests, fields, and meadows with his camera, photographing ants in their natural habitats. The resulting images are a unique and captivating look at the world around us.

Schauer's photographs capture the beauty and wonder of the natural world in stunning detail. We see ants carrying leaves many times their size, navigating complex underground tunnels, and interacting with other insects. Schauer's images also reveal the hidden dangers that ants face, from predators to the elements.

An Ant View of Nature is a stunning collection of photographs that will change the way you see the world around you. Schauer's images are a reminder that even the smallest creatures can have a big impact on the world.
