What's Inside?

How to Save a Life is divided into four main sections:

- **Basic Life Support:** This section covers the essential life-saving skills that everyone should know, including CPR, first aid, and wound care.
- **Advanced Medical Techniques:** This section provides more in-depth coverage of medical emergencies, such as cardiac arrest, stroke, and trauma.
- **Emergency Preparedness:** This section covers how to prepare for and respond to emergencies, such as natural disasters, terrorist

attacks, and active shooters.

- **Special Situations:** This section covers first aid and emergency preparedness for special situations, such as childbirth, animal bites, and environmental emergencies.
